TWISTAIR[®] III

ROTARY SCREW COMPRESSOR

TA MODELS 990 thru 1750

WARRANTY

INDUSTRIAL SCREW COMPRESSOR

The JOY Manufacturing Company warrants that this compressor conforms to applicable drawings and specifications approved in writing by JOY and that the rotary screw compressor, stator and rotor assembly will be free from defects in material and workmanship for a period of 24 months from the date of initial start-up or 30 months from the date of shipment from the factory, whichever period first expires, and in the case of all other components of JOY's manufacture will be free from defects in material or workmanship for a period of 12 months from the date of initial start-up or 18 months from the date of shipment from the factory, whichever period first expires. In cases where a unit is in Distributor stock and start-up is beyond 6 months from shipment from the factory, it will be necessary for the Distributor to obtain approval of satisfactory condition from an authorized JOY Representative to initiate warranty from the date of start-up. Any work or parts necessary to restore the unit to satisfactory condition prior to start-up will be for the Distributor's account. If within such periods, JOY receives from the Buyer written notice of any alleged defect in or non-conformance of the compressor, and if in JOY's judgment the compressor does not conform or is found to be defective in material or workmanship, JOY will at its option either: (a) furnish a Service Representative to correct defective workmanship, or (b) upon return of the component F.O.B. JOY's designated plant in order to receive warranty consideration, defective material must be shipped within 30 days of receipt of authorized return instructions, repair, or replace the component or issue credit for the replacement part ordered by Buyer, or (c) refund the full purchase price for the compressor without interest. Deterioration or wear occasioned by chemical and/or abrasive action or excessive heat shall not constitute defects.

Joy's sole responsibility and buyer's exclusive remedy hereunder is limited to such repair, replacement, or repayment of the purchase price. Component parts or assemblies not of Joy's manufacture are warranted only to the extent that they are warranted by the original manufacturer. Joy shall have no responsibility for any cost or expense incurred by Buyer from Joy's inability to repair under said warranty when such inability is beyond the control of Joy or caused solely by Buyer.

THERE ARE NO OTHER WARRANTIES, EXPRESS, STATUTORY OR IMPLIED, INCLUDING THOSE OF MERCHANTABILITY AND OF FITNESS FOR PURPOSE; NOR ANY AFFIRMATION OF FACT OR REPRESENTATION WHICH EXTENDS BEYOND THE DESCRIPTION ON THE FACE HEREOF.

This warranty shall be void and Joy shall have no responsibility to repair, replace, or repay the purchase price of defective or damaged parts or components resulting directly or indirectly from the use of repair or replacement parts not of Joy's manufacture or approved by Joy or from Buyer's failure to store, install, maintain, and operate the compressor according to the recommendations contained in the Operating and Maintenance Manual and good engineering practice.

NOTICE: UNAUTHORIZED DISASSEMBLY OR REPAIR OF AIR ENDS IN THE FIELD WILL VOID THE WARRANTY AND ADVERSELY AFFECT THE TRADE-IN VALUE.

SCREW COMPRESSOR AIR END EXCHANGE PROGRAM:

A factory re-manufactured screw compressor air end can be purchased on an exchange basis. This is not just a factory-rebuilt air end, but one which is re-manufactured to high quality as new. All bearings, seals, gaskets, and the inlet valve are always replaced. All other parts not meeting our quality standards are also replaced. The air end is then thoroughly factory tested prior to shipment. When you purchase a re-manufactured air end there is a warranty which is twelve (12) months from date of shipment in accordance with the terms set forth in the above warranty.

INTRODUCTION

This Parts List has been designed to furnish you a method to identify and order replacement parts. Since this listing supports coverage for all models, it is important that you become familiar with the "Model Number" of your machine as each part for your machine is identified and called out in respect to the machine "Model Number".

HOW TO USE PARTS LIST

Using the Table of Contents, determine the assembly group in which the part is located. Then, turn to the corresponding group illustration and listing. Locate the part on the illustration and note the applicable Reference Number. The corresponding reference number in the parts listing will give you the description, quantity, and number of the part. **Be sure to obtain part number from its proper MODEL NUMBER column.**

NOTICE

REFERENCE NUMBERS MAY BE REPEATED FOR A SUB-ASSEMBLY BREAKDOWN AS INDICATED BY GROUP LETTERS A, B, C, ETC. ON DRAWINGS AND INDENTURES IN THE PARTS LISTINGS. **MAKE SURE THAT APPLICABLE REFERENCE NUMBER IS SELECTED AND DESCRIPTION APPLIES TO PART.**

HOW TO ORDER PARTS

When ordering parts, be sure to include Model and Serial Number of machine for which parts are required. Give part number and description of each part or assembly needed. The Serial number of your machine will be found on the compressor nameplate located on the door of the controller. For ready reference, enter this number in the space provided on the front cover. Do not use illustration reference numbers when ordering parts.

WHERE TO ORDER PARTS

Parts should be ordered through your authorized Joy Manufacturing Company Distributor. Orders will not be accepted at the factory, since your Joy Distributor is equipped and located to provide you with the best possible service.

Joy Manufacturing Company maintains Regional Parts Warehouses in the following areas to provide prompt services to distributors for maintaining customer machines.

Joy Manufacturing Company:

North Central Region
