**Quincy
Compressor®**

True Blue ReliabilitySM

Manual Brought to You By: IndustrialAirPower.com

Table of Contents

This book is divided into ten convenient categories and an alphabetical Index.

If you know the item you wish to order, please refer to the Index on pages 102-103 for a complete listing of all parts and accessories offered in this catalogue.

The Table of Contents provides a brief overview of many of the items found in each section.

To ensure quality and compatibility, always order genuine Quincy parts and accessories.

For your convenience, fax number and E-mail address are located on the bottom of each facing page.

Filters - pages 2-11

Air Pressure Regulators
Control Line Filters and Strainers
Drain Line Filters
Exhaust Demisters and Filter Elements
Filter/Silencers and Elements
Inlet Filters and Elements
Inlet Liquid Separators
Intake Filters and Silencers
Oil Filters

Gauges/Indicators - pages 12-14

Air and Oil Pressure Gauges
Hour Meters and Sight Glass
Maintenance Indicators
Percent Capacity and Temperature Gauges
Pressure Differential Indicators

Valves - pages 15-38

Check Valves
Check Valve Bushings and Inserts
Dual Control Check Valve Assemblies
Drain Valves and Repair Kits
Hydraulic Unloader Assembly
Minimum Pressure Check Valves
Pilot Valves and Replacement Springs
Pilot Valves Differential Setting Ranges
Pressure Relief Valves
Shims for Coupling Alignment
Vacuum Ball and Butterfly Valves
Water Temperature Regulating Valves

Kits - pages 39-46

Engine Throttle Control Kits
High Air/Temperature Kits
Inlet Valve Repair Kits
Maintenance Kits for QR-25®, QT® and QTS®
Moisture Trap Repair Kits
Pilot Valve Repair Kit
Thermostat Valve Repair Kits

Receivers/Guards - pages 47-53

Belt Guard Dimensional Info.
Pad Isolators
Receivers for QR, QT, and QTS
Spring Isolators
Vacuum Receivers-Horizontal
Vacuum Receivers-Vertical

Lubricants - pages 54-56

Crankcase Heater
Lubricants and Lubricant Analysis Kit
Recip. Lubrication/Capacities

Electrical - pages 57-88

Automatic Alternating Panels
Contactors and Replacement Contactors
Control Panels and Replacements
Demand-A-Matic Panels
Duplex Controllers and Panel Options
Electric Motors
High Air Temp. Shut Down Switches
Light Assemblies, Lenses and Bulbs
Overload Relays
Pressure Switches
Slide Rails for Electric Motors
Starters, Open and Enclosed

Belts/Pulleys - pages 89-94

Motor Pulleys and Bushings
"V" Belts-Recip. and Rotary

Coolers - pages 95-102

Aftercoolers
Air/Fluid Coolers
Fluid Coolers

Service Tools - pages 103-105

Service Tools and Tool Kits

Index - pages 106-107

Exhaust Demisters - Vacuum Pumps

- Eliminates residual lubricant carryover from discharge of QSV rotary screw vacuum pump

#140287

#141684

#141660

Part Number	Description	SCFM @ 20" Water	Weight
140287-1	2" NPT Inlet and Discharge Connections	100	15
140287-4	4" NPT Inlet and Discharge Connections	400	70

Control Line Strainers

- Reciprocating Compressors

Part Number	Connection Size (NPT)	Max Pressure	Description
5529	1/4"	300	V-Type
7705	1/2"	300	V-Type
7706	1"	300	Y-Type

#5529

Air Pressure Regulators

- Rotary and Reciprocating Compressors

- Quincy high capacity regulators engineered for rigorous general purpose applications
- Meets flow requirements up to 200 scfm and accommodates initial pressure of 300 psig
- An air filter should be installed before any regulator
- Equipped with 0-160 pressure gauge

#8780

Part Number	Inlet-Outlet NPT Pipe Size Inches	Standard Pressure Range (psig)	Repair Kit Number
8780	1/4"	2 to 125	8787
8781	3/8"	2 to 125	8787
8782	1/2"	2 to 125	8788
23543-002	1/4"	50 to 250	N/A

#23543

Standard Filters

- Reciprocating Compressors

- For all reciprocating compressors
- Filtration is 96% - 98% efficient at 10 microns per SAE fine dust test.
- Elements are polyester cloth reinforced with steel wire screen on both sides.
- Ends are mechanically held in place.

Part Number	Used On Quincy Models
110377F075	106, 108, 214, 216, 310
110377F100	325, SLT5, SLT7.5, QT7.5, QT5, QT15
110377F125	230, 240, QT10
110377F150	340, SLT15, QT25
110377F200	255, 270, 350, 370, 4125, 5105, 5120, W5120

Intake Silencers - Reciprocating Compressors

- Recommended use with compressor installations where intake noise is objectionable.
- A filter of proper design for the location must also be installed.
- Can also be used effectively to silence the discharge of vacuum pumps.

Part Number	Pipe Size	Outside Diameter	Overall Length	Used On Models
4515	1/2"	3 1/4"	8 1/8"	A4, 206, 208, 210, 306

7504	3"	6 1/2"	36 3/4"	Optional equipment on QR 100 Series

#4454

+ Models 4125, 5120, W5120, QT-15, and QT-25 require 2 silencers

* Models 230 and 240 have 1 1/4" intake ports. To use #4468 silencer for these models, it is necessary to use a reducing coupling and close nipple which are not included.

Fluid Filters - Reciprocating Compressors

- Designed exclusively for Quincy Compressors
- Dual flow ports for improved lubricant filtration
- Filters clean lubricants to extend compressor life
- Use on all Quincy Pressure-Lubricated Reciprocating Compressors
- 10 Micron nominal filtration

QR-25® Fluid Filter

Part Number	Quantity	Fits
110814-001	6 Pack	All-Pressure Lube QR-25 Models

* Only available in 6 packs

#110814-001

QR-100™ Fluid Filter

Part Number	Quantity	Fits
9097-001*	6 Pack	All QR-100 Models (for use with phosphate ester and diester syn- thetic fluids)

* Requires 9096-002 adaptor for conversion

124331-050	1	QSI, QMA
126356-050	1	QA

Inlet Filters - Vacuum Pumps

- Inlet filters are used to remove debris and particulate matter from the vacuum gas stream and to protect the vacuum pump from solids contamination.
- For Rotary Vacuum Pumps
- Quincy vacuum inlet filters are designed for full flow placement in applications that range from atmospheric pressure to 29.9" HgV (.5 torr).
- Standard elements have a 10 micron rating and 99% filtration efficiency.
- Failure to install an inlet filter in a Quincy rotary screw vacuum pump voids the warranty.

Replacement Inlet Filter Elements

- Reciprocating and Vacuum Products

Polyester Vacuum Element Features

- Reinforced with steel wire on I.D. & O.D.
- Filtration rated 97-98% efficient
- Washable
- Dust load capacity increases 40-50% with prefilter

Paper Element Features

- Elements made with heavy-duty industrial strength paper
- Elements bonded with thermostat resin to eliminate element separation
- Filtration rated 99% efficient
- Dust load capacity increases 40-50% with pre-filter

4 Micron Filter Elements Upon Request

"T" Series Inlet Filters - Vacuum Pumps

- Inlet filters remove debris and particulate matter from the vacuum gas stream and protect the vacuum pump from solids contamination.
- "T" Series inlet filters designed for vacuum applications generating heavy particulate loads.
- Quincy vacuum inlet filters designed for full flow for placement in applications ranging from atmospheric pressure to 29.9" HgV (.5 torr).
- Standard elements have a 10 micron rating and 99% filtration efficiency.
- Failure to install an inlet filter in a Quincy rotary screw vacuum pump voids the warranty.

Complete Filter with Polyester Elements Part Number	"T" Series Vacuum Inlet Filters	Rating in cfm	Weight (lbs.)

**141469-401	4" NPT Inlet and Discharge Connections	520	26

** Replacement Element #127357E004

** Replacement Element #141469-053 (Buna)

** Replacement Element #141469-054 (Viton)

Inlet Liquid Separators - Vacuum Pumps

- Centrifugal separators remove 99% of entrained liquid over 100 microns from an incoming vacuum gas stream.
- Flange matches 125 lb. American standard flanges.
- Size range from 2" to 12".
- Consult Quincy Parts and Accessories for proper sizing and placement.

129596-002 (Tab Switch)	

#23779-015

#124972-015

- Type 1 - Mechanical
 - Type 2 - Electrical
- * Specify for oil filter or separator

Drain Valves

- Reciprocating and Rotary Compressors

Drain Cock

Part Number	Pipe Size
2713	1/4" NPT

#2713

Quincy Universal Tank Drain

#7639

Part Number	Pipe Size		Pressure Range		Repair Kit Number
	Inlet	Outlet	Minimum	Maximum	
7639	3/8" NPT	1/4" NPT	30 psig	200 psig	7818

Electronic Drain Valves

- Reciprocating and Rotary Compressors

- Automatically drains water from compressed air systems.
- Applications for: air dryers, separators, coalescing filters, and drop legs.
- Adjustment of the timer purge time and purge interval allows for optimal system drainage.

Part Number	Power Rating	Repair Kit Number
111520-025	120v/1 ph/60 Hz	111520K025
111520-050	120v/1 ph/60 Hz	111520K050
111520-150	230v/1 ph/60 Hz	111520K050

Electrical Data	Technical Data
Current Draw 10 Watt Maximum Ambient Temperature Range -4° to 122°F Dust Tight And Water Resistant to IP65 Time Ranges On 5 To 25 Seconds Off 5 To 45 Minutes	Brass Valve Bodies Stainless Steel Internal Parts Seal Material: Buna Fully Encapsulated Coil Pressure Range: 20 To 300 psig

VALVES

#122501-2

#122501-4

Dual Control Check Valve Assemblies

- Reciprocating Compressors

- For use with Part Numbers 110422-*** and 110423-*** pilot valve assemblies
(Check Valve is part of #110422 and #110423, as per page 25)

Maintenance Parts for 6194X2 Check Valve Assembly

(Use with petroleum and PAO base lubricants.)

Part Number	Quantity	Description
6194	1	Body-Check Valve (Not available; order 6194X2)
6195	1	Seat-Check Valve
123157-012	1	O-ring Buna
6196	1	Disk-Check Valve - Nitrile

#6194X2

Maintenance Parts for 6194X3 Check Valve Assembly

(Use with phosphate ester and diester base lubricants.)

Part Number	Quantity	Description
6194	1	Body-Check Valve- (Not available; order 6194X3)
6195	1	Seat-Check Valve
22749-012	1	O-ring - Viton
6196-001	1	Disk-Check Valve - Viton

Check Valves

- Reciprocating Compressors

- One-way check valves for reciprocating products
- Spring-loaded, brass construction

One-way Check Valve Single Direction Air Flow

VALVES

Check Valve Bushings

- Vacuum Pumps

- High conductance spring-loaded check valve bushings seal against oil or air back migration
- O-ring seal, carbon or stainless steel construction
- Check valve bushings are used for QSVB (all) and QSVI 20.
- For horizontal mounting only

Pilot Valves

- Reciprocating Compressors

- For all Quincy QR, QT, QTS, QRD, and QDD models.
- Load and unload pressure settings are easily adjustable and repeatability is superior.
- Design provides a cleaner appearance and increased reliability.
- Full assortment of repair parts and kits available.

Vacuum Ball Valves: Flanged

- Ball valves seal vacuum systems ranging from atmospheric pressure to 29.9" HgV (.01 torr).
- Full flow ball valves featuring carbon steel body and stainless steel trim.
- 10 position lever operation or worm gear operation

Worm Gear

10 Position Lever

Water Temperature Regulating Valves

- Rotary and Reciprocating QR-100™ Compressors

- Regulates water flow to maintain desired temperature.
- Used in water-cooled compressors and water-cooled aftercoolers.

Part Number	Description	Pipe Size	Temperature Range °F
23219-1	6 ft. capillary with 1/2" NPT	1" NPT	115-180°
23475	8 ft. capillary with 3/4" NPT	1 1/4" NPT	115-180°
23219-2	6 ft. capillary with 1/2" NPT	1 1/4" NPT	115-180°
7651	6 ft. capillary	1/2" NPT	115-180°

Hydraulic Unloader Assembly - Reciprocating Compressors

Part Number	Pressure Range (psig)	Description
110827-001	0-200	Hydraulic Unloader Assembly
110827-002	201-500	Hydraulic Unloader Assembly
*110827-003	0-200	Hydraulic Unloader Assembly
*110827-004	201-500	Hydraulic Unloader Assembly
7970X	0-200	Hydraulic Unloader Assembly
*7970XSL	0-200	Hydraulic Unloader Assembly
7970XV	Vac Units	Hydraulic Unloader Assembly
7970X1	201-500	Hydraulic Unloader Assembly
* 7970X1SL	201-500	Hydraulic Unloader Assembly

#7970

#110827

- Not all hydraulic unloader assemblies are for use with all compressor systems
- Hydraulic unloader assembly ordered should be within the operating psig limits of the system
- * For use with diester or phosphate ester synthetic lubricants

Hydraulic Unloader Repair Kit - Reciprocating Compressors

Part Number	For Hydraulic Unloader Number
8063	7970X and 7970X1
113225	110827-XXX (All Models) * New Style
8063-001	7970XSL & 7970X1SL

- * The new style is easily distinguished by the two alpha characters stamped in the body next to the vent hole.
- * DO NOT use these kits in any unloader that does not qualify by these parameters.

Maintenance Kits for QR-25®, QT®, and QTS®

-Reciprocating Compressors

- Kits contain all parts necessary to service either QTS, QT, or QR basic pumps manufactured within the referenced record of change.
- QR overhaul kits include side seal rings standard rings available upon request.
- Pin kits on X2-X3-X8-206-210-214 include con-rod assemblies. (These models do not have pin bushings or inserts).

Maintenance Kit Composition

Head Kit: All required gaskets, valve disks, and valve springs for QR products
All required gaskets and valve plates for QTS/QT products
Unloader components included where applicable

Overhaul Kit: Complete head kit, ring set, oil seals, and connecting rod insert bearings, if used.

Piston Pin Kit-press fit or float fit:

Piston pins and bushings, where applicable.

Belt Guard Dimensional Information

- Reciprocating Compressors

- Totally enclosed
- Built to OSHA standards
(Quincy Compressors not certified by OSHA)
- All assemblies include mounting brackets
- Fits portable, stationary, and climate control models
 - Available for tank mount and base mount

Vacuum Receivers - Vertical

- ASME coded receivers for use in vacuum liquid separation. Rated for full vacuum.
- Leak tight to below 29.88" HgV (1 torr).
- Tank includes ports for gauges, ports for liquid sensors, and clean out entry way.
- Internal baffle ensures changes in flow direction.

Rotary Screw Synthetic Lubricants/Fluids

QuinSyn®, QuinSyn-F® (Food Grade), QuinSyn-IV®, QuinSyn-XP®, QuinSyn-PG®, QuinSyn- Plus®™, and QuinSyn-Flush®.

Quincy synthetic lubricants are specially formulated for Quincy Rotary Screw Compressors. We offer a wide range of lubricants/fluids for varying conditions with the following standard features:

- Outstanding wear protection reduces friction and extends bearing and rotor life.
- Greater oxidative stability than mineral oil-based products
- Multiservice capability-QuinSyn® remains pumpable at low temperatures while maintaining sufficient viscosity at higher temperatures.
- Excellent demulsibility in high humidity applications
- Compatible with mineral oil systems
- Non-toxic - Not hazardous by OSHA standards

Part Number	Size of Container	Special Features
QuinSyn®		
127462-005	5 Gallons	Our most popular and versatile lubricant/fluid Pale blue in color Rated at 6000 to 8000 hour under normal use
127462-055	55 Gallon Drum	
QuinSyn-F® (Food Grade)		
110756-005	5 Gallons	Off White in Color For Special Food Applications
110756-055	55 Gallon Drum	
QuinSyn-IV®		
141140-005	5 Gallons	For Light-Duty Applications Economical where lubricant/fluid must be changed often
141140-055	55 Gallon Drum	
QuinSyn-XP®		
142784-005	5 Gallons	For High-Pressure Applications For 10-year Warranties Formulated for the Toughest Environment
142784-055	55 Gallon Drum	
QuinSyn-PG®		
143808-005	5 Gallons	For applications where condensate disposal is a concern
143808-055	55 Gallon Drum	
QuinSyn-Plus® ™		
144046-005	5 Gallons	For applications where long life and demulsibil ity of the oil is important
144046-055	55 Gallon Drum	

- Lubricants other than QuinSyn® may not be compatible with components used in rotary screw compressors.
- If necessary to convert unit to a synthetic other than QuinSyn®, contact authorized Quincy Compressor distributor.
- It is not recommended to mix compressor fluids due to incompatibility issues

Part Number	Size of Container
QuinSyn Flush®	
128542-005	5 Gallons
128542-055	55 Gallon Drum

Lubricant/Fluid Analysis Kit - Part Number 128515

- Used to provide early detection of excessive parts wear, lubricant/fluid breakdown, or contaminants in lubricant/fluid system
- Can be ordered through an authorized Quincy Compressor distributor

Quin-Cip® Lubricant/Fluids For Reciprocating Compressors

Quincy lubricants are specially formulated for Quincy Reciprocating Compressors.

We offer a wide range of lubricants/fluids for varying conditions with the following standard features:

- Excellent demulsibility in high humidity applications
- Non-toxic - Not considered hazardous by OSHA standards
- Non-detergent lubricant
- Provides protection against heat for a longer compressor life

Part Number	SAE Grade	Description	Pour Point	Flash Point COC	Viscosity cSt at 40° C	Ambient Temperature

1 Quart

1 Gallon

-Other quantities are available from Quincy Parts and Accessories

Synthetic Lubricants/Fluids - Reciprocating Compressors

- Recommended by Quincy Compressor for applications requiring synthetic fluid
- Specifically formulated for use in reciprocating compressors
- Can be used for break in
- Can be used as a flushing agent
- If compressor is drained and flushed, QuinSyn® R can replace existing lubricant/fluids
- Meets the FDA rating 21 CFR 178.3570 for incidental food contact

QuinSyn® R

Part Number	Size
111479-201	1 Quart
111479-203	5 Gallons
111479-204	55 Gallon Drum

Crankcase Heater - Reciprocating Compressors

- Fits QR reciprocating 240 and larger
- Fits QT-7.5 and QT-25
- Includes built-in thermostat

Part Number	Watt	Voltage	Size
110891	75	115 with plug	1/4" NPT
110891-001	75	230 with plug	1/4" NPT
110891-002	75	230 without plug	1/4" NPT
110891-003	40	115 without plug	1/4" NPT

#110891

- Do not operate the compressor at temperatures under -15° F.
- Crankcase heater recommended for compressors operating at temperatures below 32°F.

Demand-A-Matic® Control Panels

- Rotary Screw Compressors

- Sequence controller responds to system demand by automatically starting or stopping unit.
- Either manual rotation or automatic timed rotation of lead machine.
- NEMA 1, NEMA 4, or NEMA 12 enclosures.
- Important: The control panels of the compressor units must be wired for "Auto Demand."

#90522-190

* Enclosures are rated for NEMA 1. NEMA 4 enclosures are available upon request.

Electric Motors - General Ordering Information

- Rotary and Reciprocating Compressors

- When placing an order, the following information is required:
voltage phase horsepower
type (ODP-TEFC) service factor frame size
- A written copy of the above specifications, signed by the customer, must accompany all telephone and fax orders.
- No exchanges on motors after a voltage has been applied
- Other motors available upon request.
- If you cannot find the motor you require, contact Quincy Parts and Accessories.

Electric Motor Slide Rails

- Reciprocating Compressors

- For electric applications
- Cast iron

Rail Part Number	Reference	Quantity	Motor Frames That Rails Fit
2486XPR	1	2	254, 256, 284, 286
3340PR	2	2	143,145
7670PR	2	2	182,184, 213, 215
1671PR	2	2	182,184, 213, 215

- Each rail part number represents a pair of rails. See quantity.

Ref. 1

Ref. 2

Duplex Automatic Alternating Panel (Controller) Single Point Power Connection

- Prewired or packaged in a standard Nema 1 or Nema 4 enclosure
- Panels require only single point power supply connection, motor lead connection, and pressure switch connection.
- For use with 2 compressors where one compressor is the primary source of air and a secondary compressor operates only during periods of high air demand.

Features

- Automatic alternation
- 120 volt, control power transformer
- UL listed
- IEC starter

Special Notes: 114902xxx is a starter panel that is a NEMA 1 panel with hour meter included in the panel.
 114903xxx is a starter panel that is a NEMA 4 panel with hour meter included in the panel.

Duplex Automatic Alternating Panel (Controller)

Dual Point Power Connection

- Prewired or packaged in a standard Nema 1. Inquire for availability on Nema 4.
- Panels require dual point power supply connection, motor lead connection, and pressure switch connection.
- For use with 2 compressors where one compressor is the primary source of air and a secondary compressor operates only during periods of high air demand.

Features

- UL & cUL listed
- IEC Rated Magnetic Starters
- 120 volt, control power transformer
- Lead Select/Auto Selector switch gives user choice of compressor #1 or #2 lead or automatic alternation

NEMA 1-Duplex Controller

- Reciprocating Compressors

Low Oil Pressure Shut-Down Switch

Part Number	Available Voltages	Assembly Includes
5897X	120 volts 120/240 volts	1 5820 Tube, 1-1643 Connector, 1-3016 Nipple, 1 6698 Tee, 1-7074 Flare Nut and 1-4516 Bushing

Footnote:
The Low Oil Pressure Shut-down Switch can be used on any compressor powered by 480V AC or 575V AC through a magnetic starter provided:
First: That the Magnetic Starter with which it is to be used, is equipped with a 120V Control Circuit
Second: That a Control Circuit Transformer be supplied of sufficient capacity to furnish 13VA @ 120V or 26VA @ 480V for the time delay, in addition to the requirements of the starter holding coil and other power consuming components of the Control Circuit.

Enclosed Starters

- Reciprocating Compressors

- Enclosed starters standard NEMA 1 and NEMA 4
- Enclosed starters include line voltage coils.
- If 24 or 120 volt coil is required, call Quincy Parts and Accessories.

Differential Pressure Switches

- Rotary Vacuum Pumps

- Measures the difference in pressure across an inlet filter, valve, piping, restriction, or other vacuum component.
- Switch provides relay with adjustable range up to 3" HgV differential.

Part Number	Description
140349	Vacuum Delta P Switch
141667	Vacuum Delta P Gauge

Special High Pressure Switches

- Rotary and Reciprocating Compressors

#3851

Bushing

Single Groove for QTS Units		
Part Number	P. D. for A	Bore Size of Pulley
112757-4	2.00	0.625 (5 / 8)
112757-6	4.00	.875 (7 / 8)
112757-10	2.25	.625 (5 / 8)

- *When P.D. is not known and O.D. of pulley can be measured, use this simple calculation. Example:
- If the pulley measures 11" O.D. and uses "A" section belt(s), subtract from 11" - .250. The P.D. of that pulley equals 10.750.
 - If the pulley uses "B" section belt(s), use .350 in place of .250 to get P.D. of the pulley.

Motor Pulleys and Bushings

- Reciprocating Compressors

- Assembled and factory standard units
- Additional sizes of motor pulleys and bushings are available.

Belt Guard Aftercoolers for QR & QT

- Reciprocating Compressors

Materials of Construction Steel Headers
Copper Tubes
Aluminum Fins

Part Number	Connection Size	Weight (lbs.)	Used on Models
11579-001	1"	8	Models up to 20 SCFM
11579-002	1"	11	Models up to 35 SCFM
11579-003	1"	19	Models up to 75 SCFM
11579-004	1.25"	25	Models up to 100 SCFM

#11579-001

-Maximum relief valve setting is 350 psig.

-Maximum Inlet Temperature 500°F

Consult Quincy Parts and Accessories for mounting and bracket requirements

Belt Guard Aftercoolers for QRD

- Reciprocating Compressors

Materials of Construction Copper Headers
Copper Tubes
Aluminum Fins

Part Number	Connection Size	Weight (lbs.)	Used on Models
114868-001	1"	8	Models up to 20 SCFM
114868-002	1"	11	Models up to 34 SCFM
114868-003	1"	19	Models up to 69 SCFM
114868-004	1.25"	25	Models up to 109 SCFM

114868-001

-Maximum relief valve setting is 350 psig.

-Maximum Inlet Temperature 500°F

Consult Quincy Parts and Accessories for mounting and bracket requirements

Speciality Tools

- Reciprocating Compressors

QR-25® Service Tools

- High-quality tools make servicing QR-25 Air Compressors and Vacuum Pumps easier.
- The Valve Removal and the Hold down Screw Removal tools are designed for use with any standard 1/2" drive flex handle, "T" bar, or ratchet wrench (not included in the set.)

Description	Part Number	Tool Removes Part Number	Used on Models
Diaphragm Body Removal Tool is rugged and will withstand the most severe usage.			
Diaphragm Body Removal Tool	4-0-11	1559B 1559C	106, 108, 212, 216, 308, 310
Diaphragm Body Removal Tool	4-0-12	1823A 7483	106, 108, 212, 216, 308, 310, 325, 330, 340, 350, 370, 390, 5080, 5105, 5120, 230, 240, 244, 255, 4088, 4110, 4125, W-264, W-280, W-340, W350, W5080, W-5105, W-5120
Striking Wrench is designed to remove stubborn hold down screws and to remove valve cover caps.			
Striking Wrench (Used with 6843N)	420HX	6548	206, 208, 210, 214, 306
Striking Wrench (Used with 6662N)	440HX	1878, 1879, 1827	320, 325, 330, 340, 390
Holddown Screw Removal Tool will withstand heavy hammer blows on the striking wrench to remove the most stubborn screws without injury to slots or threads. The striking wrench portion of the tool can also be used to remove valve cover caps.			
Holddown Screw Removal Tool (Used with 440HX)	6662N	1878, 1879	320, 325, 330, 340, 390
Holddown Screw Removal Tool (Used with 420HX)	6843N	6548	206, 208, 210, 214, 306
Holddown Screw Removal Tool	6664N	3008	106, 108, 212, 216, 230, 240, 244, 255, 4088, 4110, 4125, 308, 310, 325, 340, 350, 370, 390, 5080, 5105, 5120, W-264, W-280, W-340, W-350, W-5080, W-5105, W-5120
Head Bolt Removal Tool is sturdy and designed to install and remove Allen head bolts.			
Head Bolt Removal Tool	6665N	Allen Type Head Bolts	Older Models 325 and 390
Valve Removal Tool is extra deep to accomodate suction and discharge valves.			
Valve Removal Tool	6663N	2133, 2129 5314, 5909	X-2, X-3, X-8, 350 (Holddown screw - older models)

Tool Kits - Bearing and Seal Installation Kit

- Reciprocating Compressors

QRD Service Tools

- For use with all QRD compressors, regardless of record of change.
- Use to replace worn or damaged connecting rod needle bearing and seals.

Kit #112029-104

Part Number	Description
112029-008	Mandrel Bearing/Seal Installation
112029-002	Pilot Bearing/Seal Installation
112029-007	Sleeve Bearing Installation
112029-009	Washer
110428N112	Washer
113783-R02	Nut
126490-R29	Bolt
112029-011	Latex Glove
114835	Sleeve, Pin Installation

*Kit #112029-104

* Replaces #112029 which was used on QRD 100-103

Tool Kits - Sheave/Crank Shaft Removal Kit #112692

- Reciprocating Compressors

- For use with all QRD products

Part Number	Description
112682	Push Pull Block
112683	Pressure Screw
112684	Flat Plug
123478-N17	Cap, CS Hex, PL.50NCX2.00

Kit # 112692

Tool Kits - Piston Pin Removal Tool

- Reciprocating Compressors

- For use with all QRD products

Part Number	Description
112688	Push Pin

Shaft Seal Installation Tool Kits for Lip Type Seals

- Rotary Compressors

- High-quality tools make servicing Quincy Air Compressors and Vacuum Pumps easier.

Tool Kit Number 140284		Model Used On: QSI-245-370 and all QST/QSB with lip type seal
List of Tools in the Kit		
Qty	Part Number	Description
1	140150-1	For Sleeve Installation
1	129648	Wear Ring Driver
1	129647	Shaft Seal Driver
1	142062	Wear Ring Puller Assembly

Tool Kit Number 140454		Model Used On: QSI-1000-1250-1500 with lip type seal
List of Tools in the Kit		
Qty	Part Number	Description
1	140150-3	For Sleeve Installation
1	140455	Wear Ring Driver
1	140456	Shaft Seal Driver
1	142064	Wear Ring Puller Assembly

Kit #140454

Tool Kit Number 140414		Model Used On: QSI-500-700 with lip type seal
List of Tools in the Kit		
Qty	Part Number	Description
1	140150-2	For Sleeve Installation
1	140452	Wear Ring Driver
1	140453	Shaft Seal Driver
1	142063	Wear Ring Puller Assembly

Tool Kit Number 129414		Model Used On: QMB and QMT-all models
List of Tools in the Kit		
Qty	Part Number	Description
1	142647	For Sleeve Installation
1	142654	Wear Ring Driver
1	142646	Shaft Seal Driver
1	142073	Wear Ring Puller Assembly

Index

A Aftercoolers

Air/Fluid Combination: QSI, QST	98
Air-Cooled: QSI, QST	97
Belt Guard: Recip. QR, QT	102
Saltwater: QSI, QST	95
Stainless Steel: QSI, QST	96
Water-Cooled: QSI, QST	96

B Belts

Belt Guard Dimensional Info.	47-48
"V" Belts-Recip. Compressors.....	90-91
"V" Belts-Rotary Compressors	89

Bushings

Electric Motor Bushings	92-94
-------------------------------	-------

C Coolers

Fluid, Air-Cooled: QSI, QST	101
Fluid, Saltwater: QSI, QST	99
Fluid, Stainless Steel: QSI, QST	99
Fluid, Water-Cooled: QSI, QST	100
Crankcase Heater	
Crankcase Heater	55

D Demisters

Exhaust Demisters	2
-------------------------	---

Drains

Electronic Drains	16
Manual Drains	15
Repair Kits.....	15-16

F Filters

Air Pressure Regulators	3
Automatic Control Line Filters	3
Control Line Strainers	3
Elements for Filters	5
Exhaust Demisters	2
Exhaust Filter Element Kits	2
Hooded Filter/Silencers	4
Inlet Filter Elements: Recip, Vac.	9
Inlet Filters, Vacuum: Paper	8
Inlet Filters, Vacuum: Polyester.....	9
Inlet Liquid Separators	11
Intake Filters.....	6
Intake Silencer	6
Manual Drain Line Filters	3
Prefilter Foam Options	5
Oil Filter: QR-25	7
Oil Filter: QR-100	7
QTS Filters	6
Standard Filters: Recip.....	4

G Gauges

Air Pressure Gauges	13
Oil Pressure Gauges	12
Percent Capacity Gauges	12
Sight Glass	12
Temperature Gauges	12
Vacuum Delta P Switch/Gauge	85
Vacuum Gauges.....	13

H Heaters

Crankcase Heater	55
Hydraulic Unloader	
Repair Kit.	38
Unloader Assembly	38

I Indicators

Maintenance Indicators	14
Pressure Differential Indicators	14

Isolators

Pad Isolators	49
Spring Isolators	49

K Kits

Drain Valve Repair Kits	15-16
Engine Throttle Control Kits	46
Exhaust Filter Element Kits	2
High Air/Temperature Kits	60
Hydraulic Unloader Repair Kit.....	38
Inlet Valve Repair Kits	38
Lubricant Analysis Kit	54
Maintenance Kits: QR-25	41-44
Maintenance Kits: QT and QTS	45
Min. Pressure Check Valves	19
Moisture Trap Repair Kits.....	39
Pressure Regulator Repair Kit	3
Pilot Valve Repair Kit.....	25
Piston Pin Removal Kit.....	104
Shaft Seal Installation Kit	105
Sheave/Crank Shaft Removal Kit.....	104
Thermostat Valve Repair Kits.....	40

L Lamps, Lenses, Bulbs

Bulb Replacements: Rotary	69
Lamp Replacements: Rotary.....	69
Lens Replacements: Rotary	69

Lubricants

Lubricant Analysis Kit	54
Lubricants/Fluids: Reciprocating	55
Lubricants/Fluids: Rotary.....	54
Recip. Lubrication/Capacities	56
Rotary Lubrication/Capacities	56
